

## COMPETITION MAKEUP 2019

### THE LOOK

**Bronze Smokey eye, fire engine red lips & glowing face**

### INSPIRATION

Last year we have asked PA alumni & makeup artist **Georgia Glen from @gorgz\_boutique**, to film a tutorial on the competition makeup. You can apply your makeup with her as you watch the video, she will take you through step by step! She also touches on the Cheerleading Hair. Dance hair is unique to each dance team.

*The makeup portion of the tutorial video takes 30 mins.*

### NOTES

- 1) **Cheerleading/Dance is a performance sport**; the girls are on a stage with the judges at the back of the room (20-50m away). The makeup must be able to be seen by the judges therefore it's important to remember Cheerleading/Dance makeup will look quite heavy close up.
- 2) We have asked Georgia to show us how she, a makeup artist, would apply the makeup. *(Ladies, It's also a great tutorial for a night out!!)*  
We have a **list below of products you will require**. Most of these you will probably have. **Apart from the lipstick and eye colour we require, please use whichever products you wish!**  
We also have a list of products she used which are recommended and will complete the look.  
Depending on the age of the athlete & the experience of who is applying the makeup, you may wish to leave them out at first and experiment later on to achieve the full look!
- 3) At the back you'll find a **product recommendation page** in case you need to purchase any other items.
- 4) **Spray tans** are highly recommended and should be done either the night before competing, or no more than two days prior.  
*Please understand tan appointments are not to be used as an excuse to miss practice... Believe us, it has happened before!!*

## PRODUCTS YOU REQUIRE
